

3 Courses

Physics 101 - Forces and Kinematics

Physics 101 - Energy and Momentum

Physics 101 - Rotational Motion and Gravitation

Apr 2, 2021

KE ZHU

has successfully completed the online, non-credit Specialization

Introduction to Mechanics

This specialization is for learners who are interested in first year, university-level physics. Through three courses, you will gain a foundation in mechanics including motion, forces, energy, momentum, rotational motion, and gravitation. Completing all three courses provides an equivalent experience to completing the first semester of a university physics course.

Jason Hafner
Professor of Physics &
Astronomy
Rice University

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
